

mobilehomeinfo.com

Promote your community!

In order to take this website one step further I am starting to focus on the communities or “parks”. For those of you that already have a website I will link to your community’s site from my site at **no charge** if you provide me with its web address at comments@mobilehomeinfo.com .

For the many community owners that do not have a presence on the web and I thought I could fulfill this void. For a nominal fee I will do up one page with your community’s information and pictures (provided by you) and post it on my site for \$75 for a year or \$100 for two. This will give you a presence on the “web” with minimal expenditure and hassle.

For more information drop me a line at comments@mobilehomeinfo.com with questions and your evening phone number.
